

WOODBOK

Trade | July - September 2020

THE LIGHT EDITION

FAMILY. HEALTH. SAFETY. FRIENDS.

Life's priorities are slightly different for all of us but there are a few basic things that have appeared the same for everyone around the world lately. COVID-19 and the consequent situation truly confirmed our priorities and made us re-focus even more on the things that matter the most.

While the past few months have been a huge challenge for all of us, and while you are reading this, I sincerely hope that you and your families are well, you have been able to return to work or are in a process of being able to do so soon.

And while there is finally some light at the end of the tunnel... I'd like to mention that this Woodbook is also focusing on Light! The crucial, natural element in any design. See pages 8-11 and read about our thoughts on this and about the light-filled space of the Loft project.

I hope you enjoy this edition and as always, your feedback is most welcome. Lastly, we send out regular enewsletters with inspiring case studies and product news. You can subscribe to our enews on our website: havwoods.com/uk/havwoods-insights.

Best wishes on behalf of the whole Havwoods Team,

Mari

HAVWOODS
INTERNATIONAL

01 OVERVIEW & TALKING POINTS

Havwoods have been in business for over 40 years and during this time become Britain's foremost wood flooring company supplying architects, interior designers and individuals around the world. We select the very best products from the best manufacturers worldwide and as a result offer a superior portfolio of over one thousand different types of wood flooring, cladding and joinery. Our commitment to quality, expertise and customer service make our loyal customers come back to us time after time.

Q3 THE LIGHT EDITION

Light has a vital role to play when designing interiors, as it has the ability to change the mood and ambience of a room, just as much as it can cleverly manipulate the size and shape of a space. In the same way, light also has a significant effect on how wood flooring can look, from the colour of the boards to the perceived size of the planks. Combine lighting techniques with the effects of a light coloured wood floorboard, such as white or a grey, and a room can instantly be lifted from dark and dismal, to bright and spacious.

As seen in our Loft project, our beautiful Fendi board from the Venture Plank collection is visually accentuated by the elegant, light-filled space that is made bright and airy through white walls, large windows and a stunning skylight.

A characterful board, the natural light here helps to emphasise the Fendi wood's natural grains and knotting which adds an appealing sense of personality to the room, due to the striking organic material.

The effect of sunshine and light quality on wood flooring offers an opportunity to be playful within interiors and embrace seasonal changes throughout the year - creating a space that is cool and welcoming during some months, and warm and relaxing during others. Using natural light wherever possible will ensure that the wood flooring is being showcased at its best.

Architect: JFoster Architects
Builder: Ingenious Ltd
Photographer: Agnese Sanvito
Products Used: HW3606 Fendi from Venture Plank

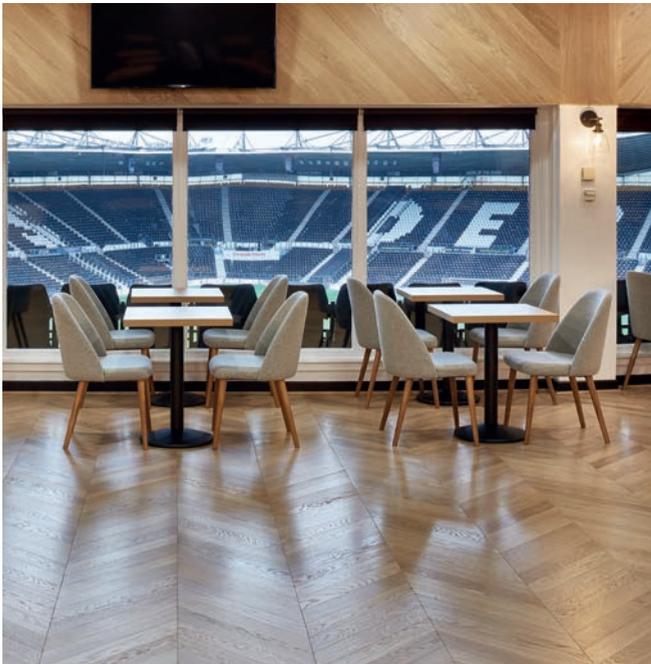

Light can be used to create rich and dramatic spaces, especially when utilised to accentuate dark wood flooring. In these darker rooms, natural light can provide a more spacious feel to any space, whereas pendant or statement lighting offers a more stylised finishing look.

Dark wood flooring offers a classic, timeless and traditional look that can act as a sophisticated backdrop to furniture and walls, however it's easy for it to become too intense and overpowering without clever planning. Light can be used to brighten and highlight, transforming dark wood into a stunning focal point, creating rich and dramatic spaces.

For a harmonious aesthetic, wood furniture should match the warmth of the floors, but be a few shades lighter. For example, grey or dark wood floors work well with pale, weathered furniture, and warm, rich floors work better with medium- to light-toned wood furniture like cherry or maple. Lighter wood furniture and white walls will provide contrast to dark wood floors without appearing stark.

Sunshine isn't the only light that can have an effect on the look of wood flooring - artificial light can also have a dramatic impact and the effect should not be underestimated. Incandescent and soft white fluorescent bulbs intensify warm wood colours but tend to fade cooler colours, while halogen and full-spectrum bulbs most closely mimic the bright light of natural sunlight.

The same product can appear warm and rich under one light, and then cool and stark under another. Depending on the wood material and finish, wood flooring can be a reflective surface, much like a tile, meaning that its warmth can appear yellow or golden in colour depending on the light shining upon it, otherwise it may appear completely washed out under an artificial light. By using multiple sources of artificial lighting and ensuring that all darker areas of flooring are well lit, you can open up a room that can, in the wrong light, feel compact.

The type of light fixture in the room will also affect the way wood flooring looks. Indirect lighting aims light towards ceilings or walls to highlight certain areas and, similarly, lampshades can change the look of flooring too, depending on the colour of the shade and the strength of the lightbulb.

ULTRA-SUSTAINABLE, ULTRA-DURABLE, ULTRA-VALUE.

INTRODUCING ULTRA FROM HAVWOODS

Havwoods is excited to launch a ground breaking solution for those customers looking for a durable and sustainable FSC® wide plank floor that utilises the industry leading 5G Click system and offers both character and prime grade boards in a massive 276mm width.

ULTRA from Havwoods offers patented technology throughout its engineered construction that combines highly resource efficient veneers of European Oak with two layers of pressurised heat-treated wood particles either side of a HDF core to produce a product that is ten times more sustainable and three times harder than a standard parquet floor.

Available in a choice of 4 beautiful shades, in both prime and character grades, ULTRA from Havwoods can be used with UFH* and also comes with a 20-year residential warranty.

For more info or to
order samples, visit
havwoods.com/uk/ULTRA

*Water based UFH systems only

1 SUSTAINABILITY

Sustainability is increasingly important across all aspects of life and ULTRA from Havwoods is arguably the most sustainable floor in the world.

2 DURABILITY

Ignoring the fact that vinyl uses unsustainable plastic, it has historically had this distinct advantage over a timber floor - not any more.

3 MAJESTY

Nowhere can you buy wide boards in prime grade with unlimited supply for this price tag. Home, office, hotel room or restaurant, ULTRA belongs.

66

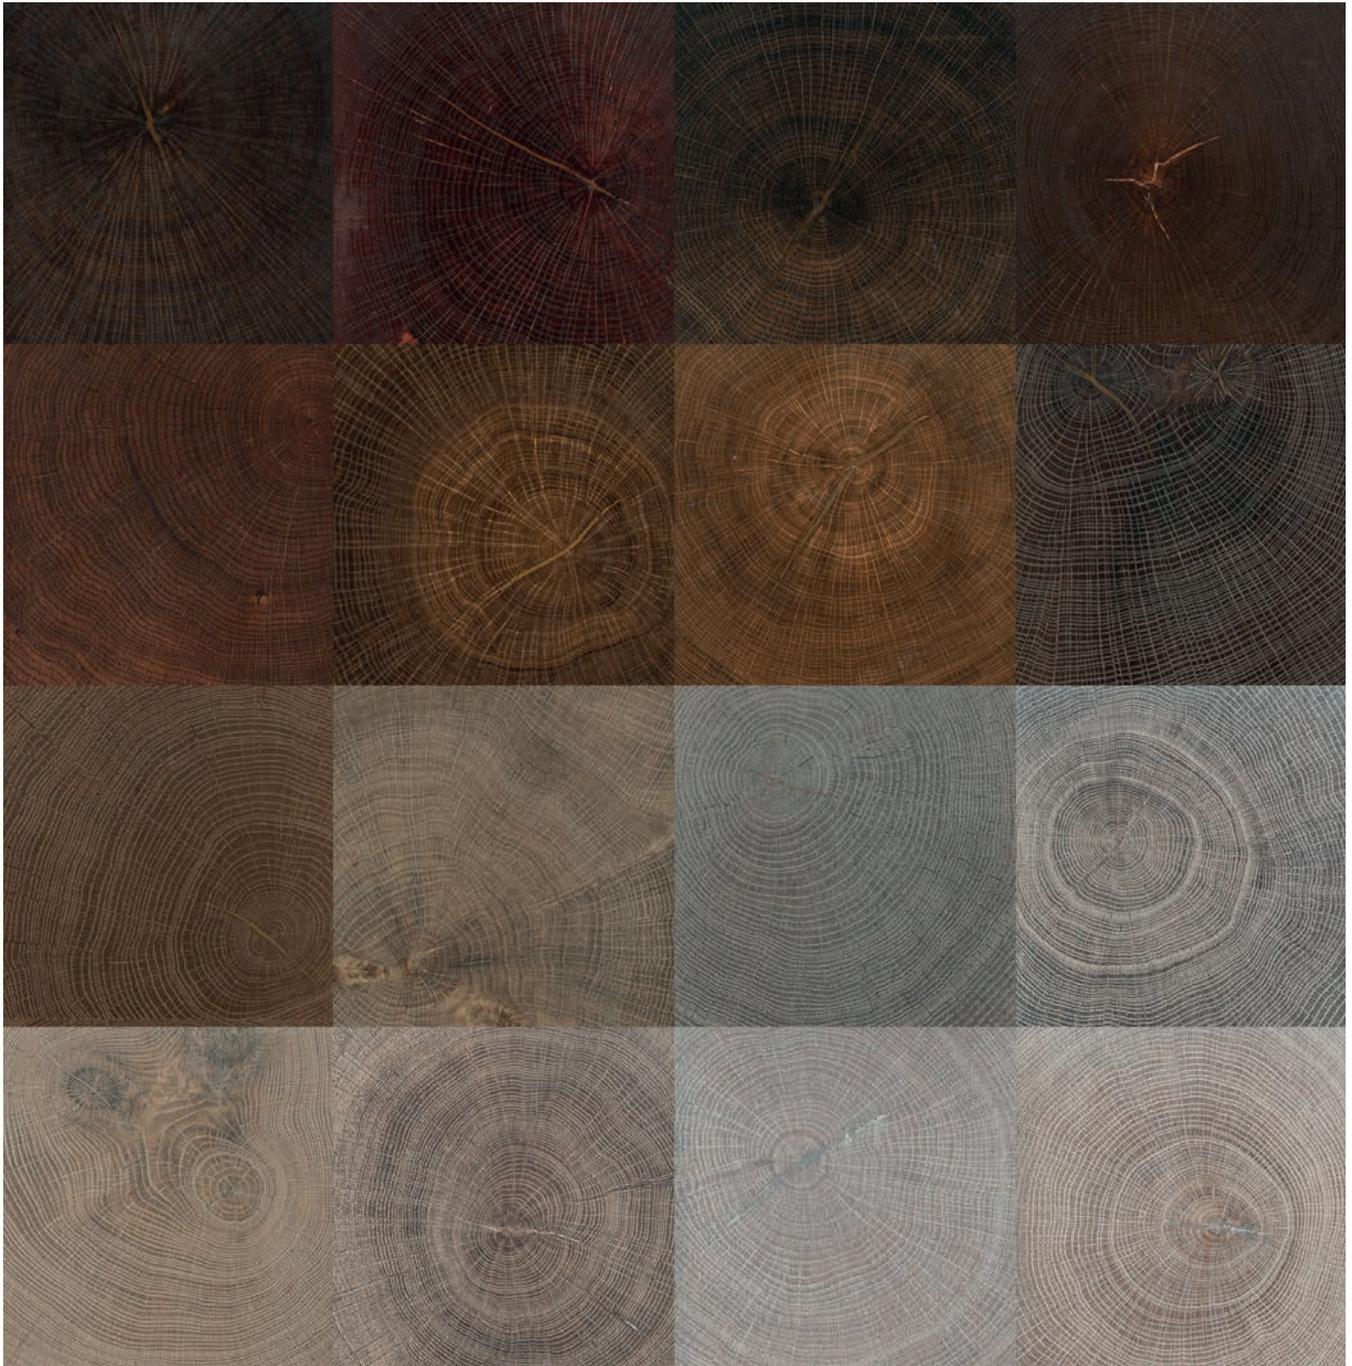

As product development lead at Havwoods, and because we are a market leader in the flooring specification market, I have been extremely fortunate during my six years with the business to see some incredible innovations.

However, I cannot describe the eureka feeling as I left the factory in March earlier this year. Since 2007 some of the finest brains in the flooring industry have been investing in this genius and today, I am extremely excited to confidently declare that "this is the future of timber flooring"!

VERN HUTCHINS - GLOBAL PROCUREMENT DIRECTOR

99

16 EXCLUSIVE COLOURS

END GRAIN

Beautiful End Grain wood flooring is visually dramatic and makes any space truly unique.

End grain is the grain of wood seen when it is cut across the growth rings. Rather than cutting a plank of wood the length of the trunk, end grain wood is cut at a 90-degree angle to the grain. This type of cut exposes the character of the wood rings and graining and as with a chopping block, the surface of an end-grain tile is incredibly tough and durable.

Our end-grain collection boards are all glued to a backing, to ensure a more stable engineered floor.

We are proud to introduce 16 new colours to this range. Please contact us for more information or to discuss your upcoming project.

MAGNETIC RAISED ACCESS FLOORING

MAGNA

Raised access flooring plays a vital role in workspace environments but, in our experience, no existing timber adaptations provided satisfactory results. This is why we designed our own with specific criteria.

Our structure works with tongue and groove boards to ensure that any danger of stepping (where the planks pop up), cupping or warping is eliminated. It incorporates a better method of blocking air flowing from under the floor than those currently available, and it includes an arrangement to ensure that the planks will not squeak.

The result of our research is Magna, where the reverse of the timber is magnetized. This additional benefit ensures fast, easy removal of individual planks, or even entire floors, without risk of damaging their surface. Magna timber can be installed over any new or existing raised access flooring system.

Take a look at how our Magna solution works on pages 140-143.

BUSINESS DEVELOPMENT TEAM

OUR BUSINESS DEVELOPMENT MANAGERS HAVE AN AMAZING REPUTATION FOR BOTH THEIR DESIGN EXPERIENCE AND TECHNICAL KNOWLEDGE, AND WELCOME THE OPPORTUNITY TO VISIT AND HELP WITH YOUR PROJECTS LARGE AND SMALL.

INSPIRATION

Take a look at some of our stunning projects and be inspired by luxurious wood in a variety of interiors.

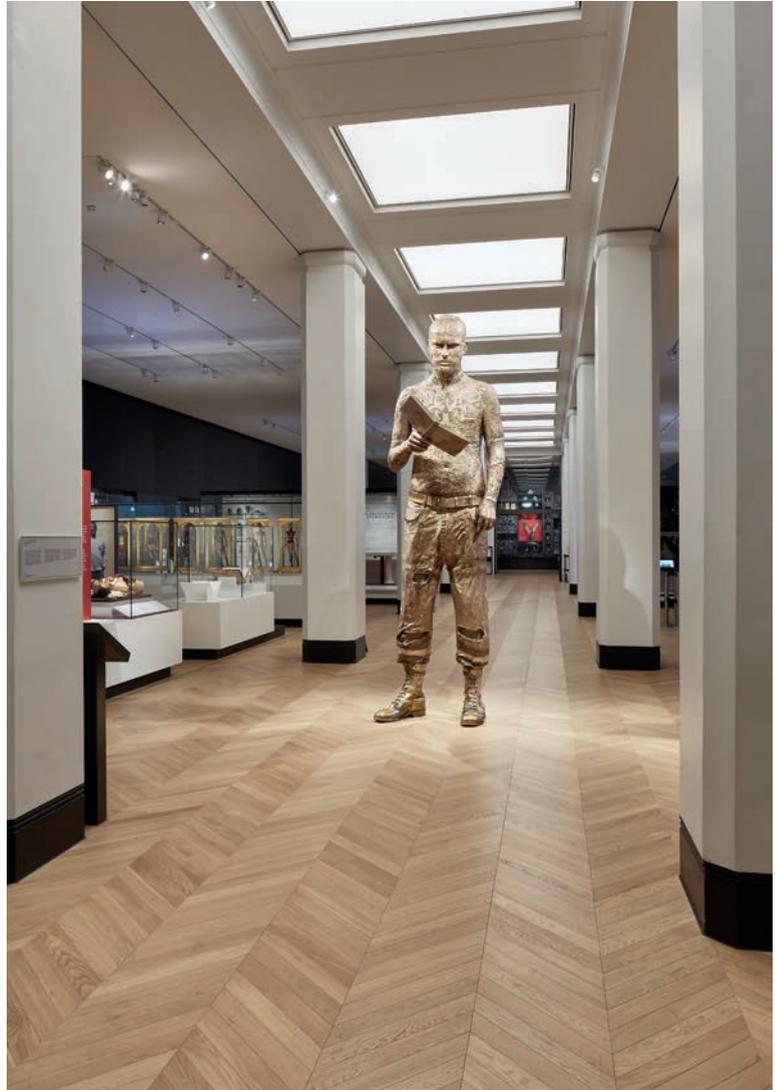

SCIENCE MUSEUM

LONDON

Architect: Wilkinson Eyre
Main Contractor: IntParagon
Installer: Loughton Contracts
Photographer: Calvert Studios

Products Used: HW16620 Caffè Chevron
Boards from Italian Collection

The home of human scientific ingenuity, the Science Museum in London is a world famous attraction, welcoming visitors from all across the globe. With over two years of planning involved, the recently launched Medicine Galleries at the museum is the largest of its kind in the world. The new gallery required a traditional, beautiful quality finish for its flooring using only the highest specification of products to impress visitors.

MEDICINE

THE WELCOME GALLERIES

OUR JOURNEY WITH DRUGS

Innovations in drug therapy have boosted our health prospects. Discoveries such as penicillin and insulin have helped us live longer, more comfortably, and tackled conditions once thought to be untreatable. But some such as rheumatoid arthritis increased our trust in medicine. Balancing health benefits against possible risks can be a painful choice, and sometimes the side effects are unknown.

From chronic conditions such as cystic fibrosis to everyday ailments such as headaches, taking medicine is part of all our lives. As the number of drugs expands, so too do our expectations of what they can achieve.

For the first floor gallery, featuring a 150 metre long space, Havwoods was able to supply the Caffe chevron board from its Italian collection. An engineered oak chevron, this board was selected for its clean grade with a clear finish, which resulted in a classic but clinical feel. The timber installation team was required to install over 47,000 individual pieces of timber, equivalent to 17.9 miles!

RAMSIDE HALL HOTEL TREEHOUSES

DURHAM

Architect: Padgett White Architects
Designer: Space ID
Builder: Grove Park Developments
Products Used:
RECM4400 - Relik
HRC2030 - Vertical
HW3892 - Venture Plank
RECM4382 - Design from Havwoods
RECM4389 - Design from Havwoods
RECM4398 - Design from Havwoods

Set in the woodland adjacent to the luxurious Ramside Hall hotel, the Ramside Treehouses give guests unrivalled views over the beautiful golf course. Built on stilts, the treehouses are comprised of three bedrooms, a private living room and a state-of-the-art bathroom complete with a freestanding copper bath. The treehouses also benefit from full height windows, allowing natural light to flood in and a wraparound balcony with sunken hot tubs.

VIEW THIS CASE STUDY ON HAVWOODS.COM/UK

The design brief was to create unique 5-star lodges each with a character of their own in a timeless design that'd be completely immersive and comfortable. Havwoods provided products from its Relik, Vertical, Venture Plank and Design from Havwoods collection, across both the walls and floors of the treehouses, for an authentic, rustic aesthetic that showcases the spectrum of interesting shades and finishes available through the application of timber.

LAURA ASHLEY TEA ROOM AT THE VILLIERS HOTEL BUCKINGHAM

Designer: Kay Cullen/Jacqui Peree
Builder: Panton Developments
Products Used: HW16205 - Ardesia 45
Herringbone from The Italian Collection

Afternoon tea at the beautiful Laura Ashley Tea Room must be one of the most quintessentially English ways to spend an afternoon. Located at the luxurious Villiers Hotel in Buckingham, this charming tearoom was recently refurbished into a delightful space for people of all ages to enjoy.

The design brief was to create a light, bright and welcoming space that featured a touch of luxury. Not only this, but it also needed to incorporate the much-loved Laura Ashley brand and work within the historic architecture of the building. The focal point of the design is a stylish tree print wallpaper that mirrors the surrounding ancient woodlands. The Ardesia board from Havwoods' Italian Collection was selected to add natural character and warmth to the woodland design, while the chevron pattern added an on-trend finish that will also be a timeless choice for years to come.

PLANK SIZE

03 GRADING & SUSTAINABILITY

The Havwoods Story Wall available in our London Showrooms helps you consider different details and factors when choosing the right wood flooring for your project. Let's explore the options together!

MAKING THE GRADE

SINCE THERE IS NO INTERNATIONAL STANDARD FOR TIMBER GRADES, THESE ARE A GUIDE AS TO WHAT YOU MAY EXPECT. PLEASE DO REMEMBER THAT BOARDS ARE USUALLY SELECTED BY EYE AND THAT THESE PARAMETERS ARE SIMPLY A GUIDELINE.

PRIME

Typically, prime grade has few, if any knots, and these will be of minimal size. There will also be a minimal amount of sapwood and filler, if any at all. Where filler is used its colour is carefully selected to complement the wood rather than to match it exactly, and the colour of the filler may vary from batch to batch. There will be a relatively small amount of colour variation in the timber itself.

SELECT

Typically, this grade will have a mix of almost prime boards with other planks which have more knots of a limited size. Expect some variation in tone from heartwood and sapwood as well as small checks (cracks across the growth ring). There will be some filled elements, such as broken knots, which will complement the natural character of the timber and may vary from batch to batch.

CLASSIC

Classic Grade floors show the natural variation of timber without allowing some of the more characterful features in more rustic grades. Planks with very few knots will be mixed with some planks containing larger knots or checks (cracks across the growth ring) which may be filled. Variation between tone from heartwood and sapwood can be expected but is controlled. Filler colour is selected to complement the natural character of the timber and may vary from batch to batch.

CHARACTER

Typically, character grade will include both heartwood and sapwood and allows a wider range of colour variation. Knots are larger and you should expect checks (cracks across the growth ring) and possibly some end shake (cracks between the rings). Filler will be used, the colour of which is carefully selected to complement the wood rather than to match it exactly, and it may vary from batch to batch.

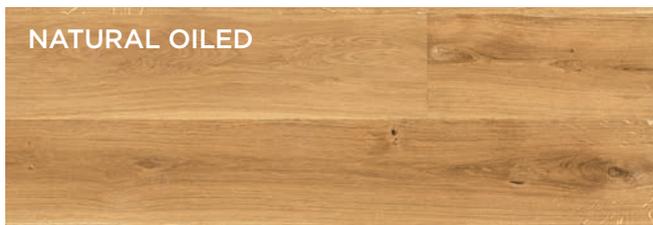

NATURAL/RUSTIC

Known as either natural or rustic grade this allows a virtually limitless size and number of knots. Heartwood will be used, there will be colour variation, sapwood and filler; you should also expect checks (cracks across the growth ring) and possibly some end shake (cracks between the rings). The colour of the filler is carefully selected to complement the wood rather than to match it exactly and it may vary from batch to batch.

FINISHING TECHNIQUES AND CHARACTERISTICS

TO CREATE THE OUTSTANDING FINISHES WE OFFER, THE WOOD GOES THROUGH VARIOUS PROCESSES WHICH AFFECTS DIFFERENT TYPES OF WOOD IN DIFFERENT WAYS.

SOMETIMES COLOURED OILS ARE ADDED TO PRODUCE AN EVEN MORE INDIVIDUAL APPEARANCE.

SAPWOOD

Sapwood is the living part of the tree through which water and sap flow. It is always lighter in colour than the heartwood and certain fuming, smoking and colouring processes emphasise the sapwood since it doesn't react to such treatments to the same degree. (The effect of these treatments on planks containing sapwood is shown above.) By definition sapwood contains more moisture, however this is no cause for concern since all Havwoods' timber has been carefully dried and its stability is ensured when supplied in an engineered form.

SOME CHARACTERISTICS OF WOOD ARE PURELY NATURAL AND THESE ARE EXPLAINED BELOW.

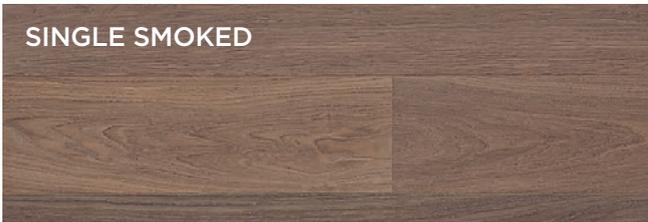

KNOTS & FILLERS

A knot is either the base of a side branch or a dormant bud around which the grain flows. A knot is sometimes replaced by filler and this may be of various colours: white, grey, brown and black are shown here.

MEDULLARY RAYS, CHECKS & SHAKES

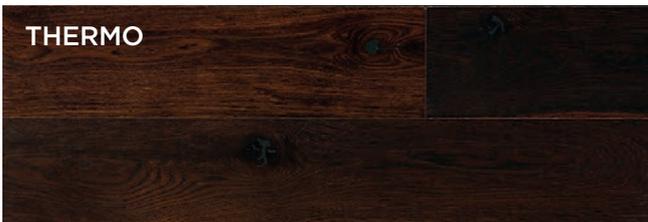

These white, ribbon-like medullary rays are an indication that the plank has been crafted from quarter-sawn timber. Checks and shakes usually occur at the end of a board and may be cut off.

SINGLE SMOKED

DOUBLE SMOKED

THERMO

SMOKING AND FIRING GRADES

Smoking and fuming are essentially the same and refer to a process whereby the hardwood is exposed to ammonia gas for 24 (single) or 48 (double) hours. The colouration is surface deep only. Unlike staining, smoking reacts to the chemical composition of the individual plank, so the ultimate shade will vary. This variation is considered an asset, however if you prefer a more even tone we suggest you consider choosing stained rather than smoked wood.

Fired products are treated in a vacuum, sometimes for several weeks, and the dark colour runs throughout the lamella providing a genuine visual alternative to tropical hardwoods.

PATTERNS

THERE ARE VARIOUS DIFFERENT TYPES OF DESIGNS OR PATTERNS AVAILABLE. STANDARD PLANK IS THE MOST COMMON STYLE BUT YOU MAY DECIDE ON SOMETHING MORE INTERESTING LIKE A BLOCK OR HERRINGBONE.

HERRINGBONE

Solid blocks and larger engineered wood blocks means you can create many different sizes in this pattern. Herringbone blocks may be laid in single or double patterns, or if they are the correct proportion you will be able to produce patterns called 'Tumbling Dice' 'Basket weave' and 'Ladder' patterns.

PLANK

This is sometimes known as plank, strip or boards and is available in many different lengths and widths.

PANELS

WE HAVE A HUGE SELECTION OF PANELS IN DIFFERENT DESIGNS AND ALSO AVAILABLE IN GENUINE RECLAIMED WOOD. SEE PAGES 102-107.

VERSAILLES

GORD

FINISHES

LACQUERED

This is normally a polyurethane coating that covers the pores of the wood and forms a hard, resilient surface, protecting it from dirt and moisture ingress. A good quality lacquer will protect a wooden floor for anything from 12 months to 6 years, depending upon the amount of foot traffic.

OILED

Oil penetrates deep into the wood and brings out the true beauty of both the color and grain, as well as providing protection for the floor. In addition to providing a natural look, oiled floors lend themselves to being spot repaired in the event of surface damage.

UV CURED HARDWAX OIL

Combining the wear advantages of a lacquer with the subtlety of oil, this finish is micro-porous, water-repellent, dirt-, wear-, and stain-resistant against wine, beer, cola, coffee, tea, fruit juices and milk. It will not crack, flake, peel or blister.

SUSTAINABLE FUTURE

ENSURE THE WOOD YOU USE IS THE RIGHT WOOD

HERE AT HAVWOODS, WE DO OUR UTMOST TO ENSURE OUR TIMBER IS ETHICALLY AND SUSTAINABLY SOURCED. THIS INCLUDES BEING CERTAIN THAT WE'RE WORKING WITH REPUTABLE TIMBER COMPANIES WHO AREN'T INVOLVED WITH IMPORTING ILLEGALLY LOGGED WOOD FROM AROUND THE WORLD. MANY TIMBER SUPPLIERS WILL TELL YOU, OFTEN IN GOOD FAITH, THAT THEIR SUPPLIES ARE FROM 'MANAGED' OR 'SUSTAINABLE' SOURCES, OR FROM PLANTATIONS. HOWEVER, UNLESS THEY HAVE AN INDEPENDENT CERTIFICATION SYSTEM IN PLACE, THERE'S REALLY NO CERTAIN WAY TO VERIFY THEIR SOURCES, OR FOR YOU TO DEMONSTRATE TO YOUR CLIENTS THAT YOU'VE MET THEIR EXPECTATIONS FOR ETHICAL TRADING.

We know that deforestation is having a huge impact on the environment - global warming, soil erosion, the loss of habitat for plants and animals, and the destruction of local populations and the water cycle, to name but a few factors.

Helping local populations to preserve their forests is the task of international non-profit organisations like the Forest Stewardship Council® (FSC®). Indeed, the FSC's mission is to promote environmentally appropriate, socially beneficial and economically viable management of the world's forests. This includes addressing issues such as illegal logging, deforestation and global warming, with positive outcomes on economic development, environmental conservation, poverty alleviation, and social and political empowerment. Look out for FSC certified products throughout this brochure.

Another international organisation that you'll find referenced throughout this publication is the PEFC (Program of the Endorsement of Forest Certification), who concentrate on ensuring that certification is accessible even to small and family owned forests. Meanwhile, the Cradle to Cradle Products Innovation Institute (administrator for the Cradle to Cradle Certified Products Programme) addresses issues from a different angle - educating and empowering manufacturers to become a positive force for society and the environment.

Opting to use more wood is undeniably good for both the individual and the environment - just make sure that you're choosing wood from a sustainable source.

PEFC/16-37-1417

All product location photography should only be used as a guide to colour and grading. Due to the size of the image together with the printing process and screen resolutions these should not be taken as a true representation of your floor. Variations to images will occur in both colour and grading.

HENLEY

HENLEY

The Henley collection from Havwoods presents a range of high-performance, pre-finished engineered planks with a superior-quality oiled surface. An excellent choice for high footfall installations, or areas that are exposed to heavy-duty use, the textured surface ensures that any superficial scratches and marks are naturally disguised without distracting from the floor's original aesthetic. Sawing, brushing, burning and planing techniques are applied to the wood in order to add this character, and every product is tested to ensure that these processes have not weakened the plank structure. Applied with a traditional tongue and groove fit profile, Henley is available in a variety of widths ranging from 120-260mm.

RELIK

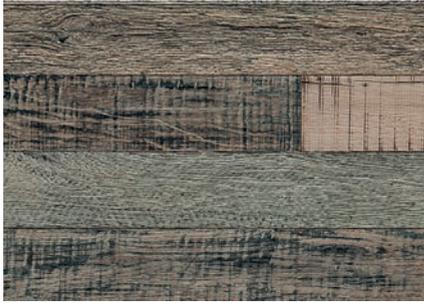

RELIK

A collection of solid and engineered planks, Relik translates the beauty of reclaimed timber to a superior wood flooring range. Proudly displaying the rich patina of its past, each individual design in the range has a story to tell. Sourced from completely authentic origin, Havwoods' genuine reclaimed wood starts life in all corners of the globe, salvaged from age-old wooden structures then lovingly hand-repaired and restored by skilled craftsmen. The product is then planed, profiled and sanded using twenty-first century production techniques to create a hardwearing and multifaceted plank that will bring character to any interior.

PUREPLANK

The mark of
responsible forestry

PUREPLANK

An affordable range of 14mm and 9mm thick boards, the diversity in finish of this superior collection lends it to a breadth of applications. PurePlank's triple-layered construction comprises of a solid ash and European oak surface, bonded to two layers of softwood for stability and all-round performance. The Havwoods 'Click' fit system makes installation exceptionally quick, a highly beneficial quality for large-scale projects. Choose from a variety of widths and finishes, including our UV Oiled coating, which provides a hardwearing surface that also enhances the wood's natural characteristics. The engineered construction of the PurePlank range means that it can be fitted over underfloor heating. All products are FSC® certified timber (FSC C009500).

VENTURE PLANK

The mark of
responsible forestry

VENTURE PLANK

A truly diverse selection of engineered timber boards, the VenturePlank range from Havwoods is characterised by its spectrum of interesting shades and smooth surface texture. The two-layered construction comprises of a hardwood surface, backed by a superior-quality birch ply to ensure a greater level of stability. This construction guarantees a durable and sturdy floorcovering that is suited to both residential and commercial applications. Suitable for use in conjunction with underfloor heating, VenturePlank has a traditional tongue and groove fit profile with a bevelled edge. All Valour finished products are FSC® certified timber (FSC C009500).

VENTURE PLANK VALOUR UV OILED FINISH

Our Valour UV Oiled finish is scratch and impact resistant and offers the hardest wearing oiled finish in our range. With ten beautiful colour to choose from all in a rustic grade. All Valour UV Oiled products are FSC® Certified Timber (FSC-C009500) and also Cradle To Cradle Silver Certified.

VENTURE PLANK UNFINISHED

Our carefully selected collection of unfinished Venture Plank products may require additional sanding before applying the final chosen finish on site. Your choice of finish, whether it be lacquered or oiled, natural or coloured, may alter the appearance of the finished product, so we always recommend trying a small area before completing the full floor.

DO YOU PREFER A MORE NARROW LOOK?

Our Italian Collection offers the widest range of narrow planks with matching chevron and herringbone patterns to compliment.

To find out more go to pages 112-120.

DESIGN FROM HAVWOODS

DESIGN FROM HAVWOODS

The home of Havwoods' herringbone, chevron, and Versailles pattern wood flooring, this exceptional collection includes both engineered and solid construction planks, alongside the introduction of a select range of genuine reclaimed wood. Sourced from a multitude of mills, each distinctive design is presented in a breath of beautiful wood tones and quality finishes. The range also welcomes the introduction of Havwoods' new wood blocks. A beautifully patterned floor can be created with ease from a choice of three geometric shapes: Mansion Weave, Hexagons and Stretch Hexagons. Opt for a single wood finish, or mix and match from a choice of three contrasting wood colours.

EXCLUSIVE CLICK-SYSTEM HERRINGBONE

Exceedingly simple to lay, the new interlocking system on these 7 exclusive herringbone products makes it extremely fast to install. FSC® certified timber (FSC-C009500).

3 PRE-ASSEMBLED CHEVRON PLANKS

Decorative patterned wood flooring dates back to the 17th century, and it's definitely enjoying a resurgence in the 21st. But laying a block floor, even one that is pre-finished, is a time-consuming process, so we've borrowed an idea from our ready-made Versailles pattern panels and present pre-assembled, pre-finished 'chevrons in a plank'. 15mm thick, 305mm wide and 1672mm in length, with an oiled finish, they are currently available in four fashion-forward shades and are ideal for both commercial and residential applications. Clearly they are also extremely quick and easy to fit.

THE ITALIAN COLLECTION

The mark of
responsible forestry

PEFC/16-37-1417

THE ITALIAN COLLECTION

Inspired by the intricate floors of Italy, The Italian Collection comprises of chevron, herringbone and plank style boards, available in a spectrum of shades. Narrower in form and offering a thinner composition, their size offers the flexibility to create more complex flooring patterns. Combine various wood flooring designs together for a mix-and-match look, or complement with tiles in porcelain, ceramic or glass for a trend-led finish. All boards feature a traditional tongue and groove profile, and are surfaced with a lacquer or oiled finish. The majority of the collection includes FSC Certified timber (FSC-C009500). Look out for the new Acacia and Walnut additions which are PEFC Certified (PEFC/16-37-1417).

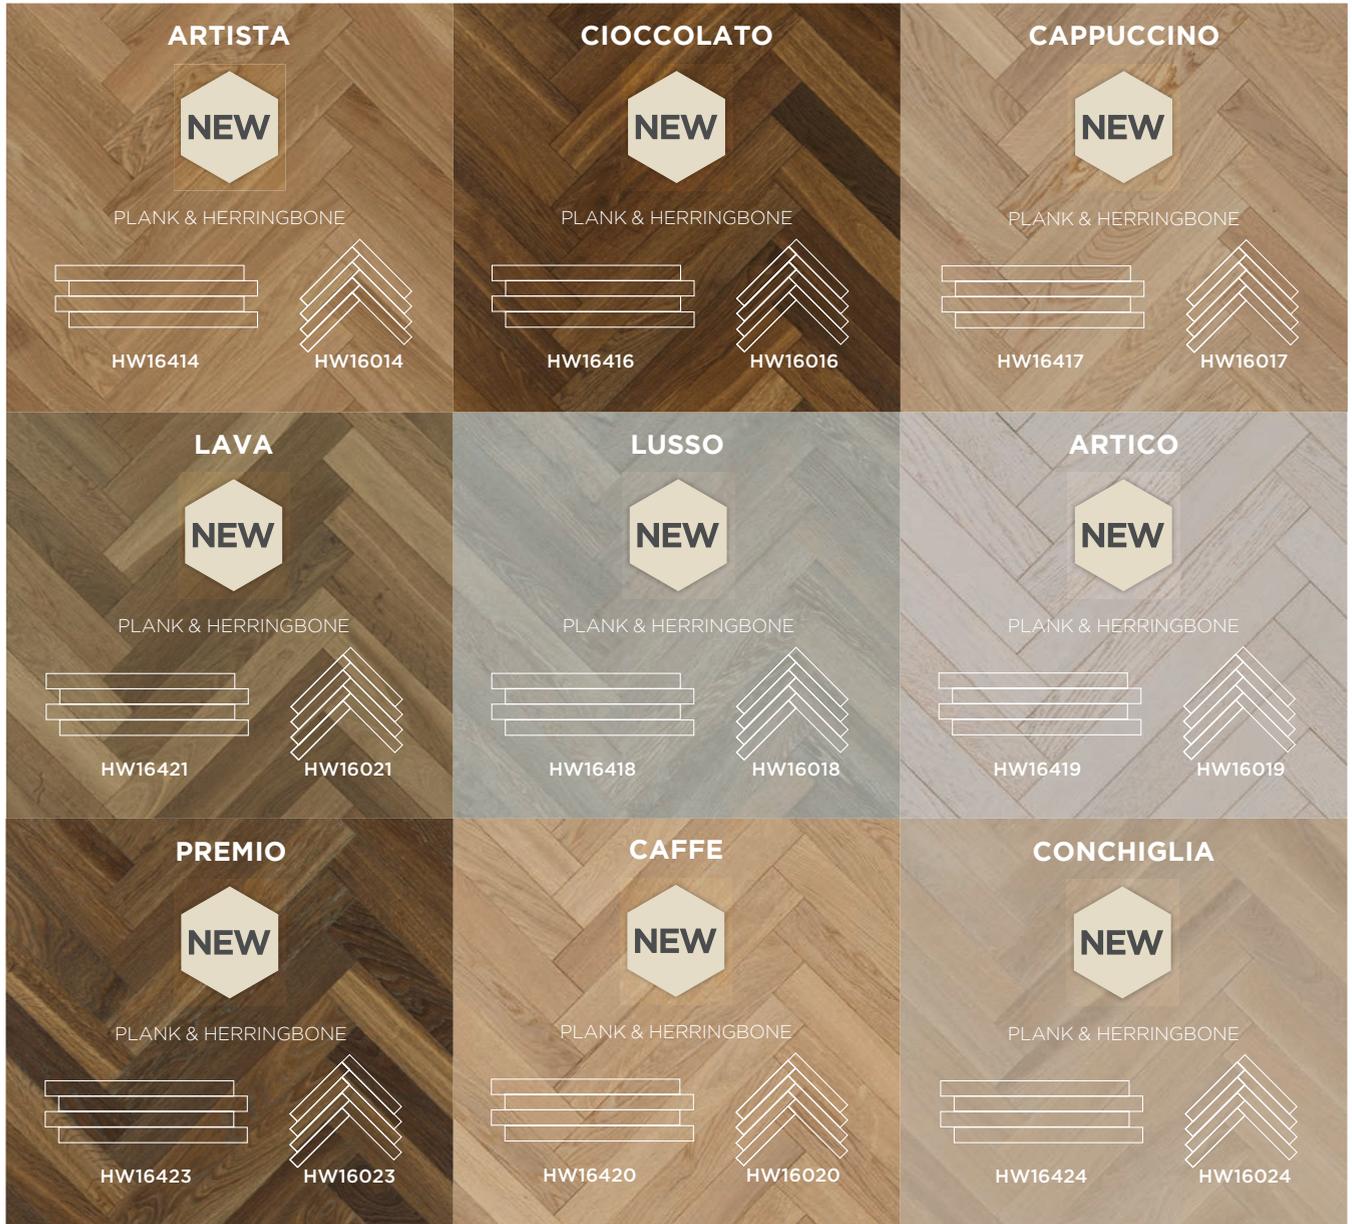

EXCLUSIVE SHADES IN THE ITALIAN COLLECTION

Our popular and stylish Italian Collection includes a vast selection of colours to choose from, and there are also nine exclusive colours available for special order in Plank and Herringbone patterns. Please contact us on +44 (0)1524 737000 for samples and pricing, or alternatively order your samples via our website.

BESPOKE & SPECIAL ORDERS

With Havwoods Bespoke and Special Orders we can turn your ideas into realistic propositions. Our team will discuss all the available options with you and provide you with a quote.

WHEN STANDARD PRODUCTS WON'T DO

SOMETIMES YOUR REQUIREMENTS CANNOT BE FILLED BY OUR STANDARD PRODUCTS. WHILE OUR RANGE IS EXTENSIVE, WE AT THE SAME TIME UNDERSTAND THAT AT TIMES YOU NEED SOMETHING MORE. WE ARE PROUD TO BE ABLE TO FULFIL YOUR BESPOKE WOOD FLOORING REQUIREMENTS.

You can have your ideal floor of any size, colour or pattern. You may start with one of our standard products or even an external option that is giving you the overall look you are after. Our team can then work with you to refine the primary characteristics of the product to meet your exact needs.

We may be able to modify:

- Width or length of the planks
- Thickness of the product to meet desired build-up
- Grading of the top layer
- Certification requirements
- Specific patterns or matching planks
- Custom design panels
- Surface texture and finish
- Colour and shade

MAKING THE GRADE

When you are planning on installing a product on both the floors and ceilings of your Miami Beach Villa, you need the product to be perfect for you. Our customer chose our popular but rustic grade Alcazar from our Venture Plank range, and opted for a prime grade with a stunning result!

View more about this project on our website:

havwoods.com/uk/alcazarspecial

AWARD-WINNING VALOUR

This workspace customer in London was looking to add extra resilience to the flooring in their new offices. They decided to go with our highly durable Valour UV Oiled finish added to their chosen colour and surface. Valour is perfect for any space with a high footfall.

View more about this project on our website:

havwoods.com/uk/valourspecial

OVERSIZED CHEVRON OR HERRINGBONE

Both chevron and herringbone patterns offer a beautiful and eye catching design, but if you want to exaggerate that look even further then a special-order oversized chevron or herringbone can do just that. With either wider or longer blocks you will surely stand out from the crowd!

THE MOORINGS

SURREY

Designer / Architect:

Self Build by Maggie and Peter Clist

Photographer: Calvert Studios

Products Used: Special Order Aspen Raw

Prime

This self-build project, nestled within the picturesque scenery of the Greensand Way, is a prime example of how a new development can fit seamlessly into a rural landscape. Drawing upon the surrounding countryside and its abundance of oak trees, the homeowners introduced elements of this beautiful material into the architectural build of the home, through internal oak beams, fitted furniture and Havwoods' engineered oak flooring.

Robust in structure and light in tone, the planks were installed throughout the whole house, creating a feeling of continuity and unifying each individual room. This concept is reflected in the Prime Grade surface of the chosen plank, which offers a smooth, uniform finish that beautifully showcases the wood's natural grain pattern.

To discuss your project which may fall outside our standard product range please get in touch:
info@havwoods.com | +44(0)1524 737000

BESPOKE PATTERNS, PANELS AND DESIGNS

If you would like to opt for something truly unique then we can make the pattern of your dreams a reality. No matter the shape or complexity of design we will work with you to deliver a practical, yet impactful wood flooring solution.

If your project requires additional levels of accreditation then this is something, we can offer too on many of our products including FSC® (FSC-C009500), PEFC™ (PEFC/16-37-1417) or Cradle-to-Cradle Certified™ products.

Discuss your requirements with us:

info@havwoods.com | +44(0)1524 737000

DESIGN WITHOUT LIMITATIONS

Ever wanted to combine wood with other materials such as stone or marble? Or perhaps metal? Our full bespoke services enable you to do just that. Whatever your design requires it is very likely that we will be able to help. Working with producers around the world we can make even the most complex designs to come alive.

HAND GRADE COLLECTION

LUXURIOUS AND PRESTIGIOUS ARE THE BEST TERMS TO DESCRIBE OUR SUPERB HAND GRADE COLLECTION. WITH PLANKS OF UP TO 4 METERS LONG AND ALMOST 0.5 METERS WIDE, THIS COLLECTION TRULY OFFERS SOMETHING UNIQUE. AVAILABLE IN SENSATIONAL SHADES.

HAND GRADE PRODUCTS ARE CRADLE TO CRADLE (BRONZE) AND FSC® CERTIFIED, AND WHAT'S MORE THE ENTIRE COLLECTION IS SUITABLE FOR USE OVER UNDERFLOOR HEATING.

Hand Grade is a luxury, high quality, high performance, pre-finished engineered board of triple layered construction, within a nominal 6mm wear layer of European Oak, 23mm birch ply core and European Oak base.

This stunning collection of boards and finishes needs to be seen to be believed, so we recommend that you discuss it first with one of our Showroom Consultants in a personal consultation. We will explain the careful selection process and take you through it in detail, looking at all available options for finish and colour.

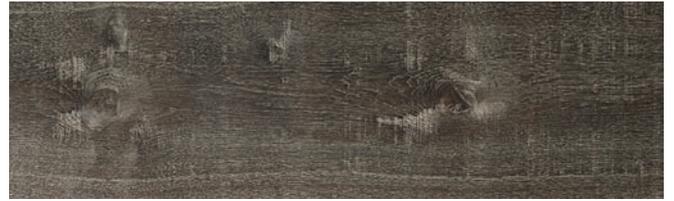

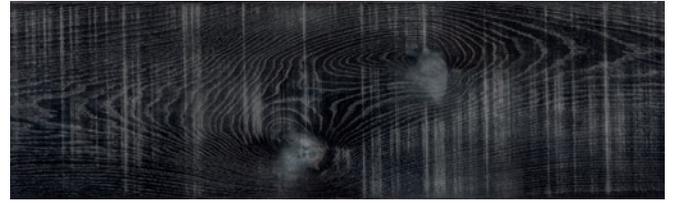

After this we will arrange samples sent to you, and once you have made your choice and approved the sample, we will then use your choice of sample for quality control throughout the production process. This process adds quality to the selection process of this prestigious flooring.

HAND GRADE COLLECTION

HAVSPORT

PEFC/16-37-1417

HAVSPORT

The next generation of solid wood sports flooring, Havsport floors comprise of 22mm thick, 2-strip solid hardwood planks, in a choice of timbers. Providing an exceptionally stable and moisture resistant surface, this innovative range is suitable for both multipurpose sports studios and large-scale event areas. All pre-finished boards are sealed with an anti-scratch lacquer, which vastly improves wear resistance. This lacquer is designed not to require a final coat on site, and for water-based line marking paint to be applied directly to the floor without need for further sealing afterwards, all of which results in a considerable cost and time saving.

MAGNA®

MAGNA®

The latest innovation in raised-access flooring, Magna's magnetic fit system offers a versatile solution for installation in commercial workspace.

MAGNA

The latest innovation in raised-access flooring, Magna's magnetic fit system offers a versatile solution for installation in commercial workspace, providing accessibility to underfloor services that cannot otherwise be installed in wall cavities.

Magna's magnetised and foam-sealed wood boards provide a secure connection to the supporting structural pedestals, which can be conveniently disconnected using a suction lifter to allow for maintenance and repair of the concealed services.

In comparison to conventional fit methods, Havwoods Magna is up to 90% faster to install making it ideal for large-scale office and retail environments where a quick turnaround is essential. The Magna magnetic system is offered across the majority of our wood floor finishes, creating flexible floor coverings that cater to both aesthetic and practical specifications.

We're also proud to offer a Lifetime Guarantee on Magna's magnetic components to provide durability and complete peace of mind.

PUREPANEL

PurePanel® really is perfect for designers, architects and joiners who wish to create bold and stylish in both commercial and residential applications. Our PurePanel® boards are incredibly versatile and are supplied pre-finished and ready to use, offering huge time and cost savings, whilst still offering the distinctive look and feel only available from real wood. Coloured to match some of our most popular finishes, the mix-matching technique and industrial processing of PurePanel® also guarantees consistent colours and quality.

PUREPANEL® FROM HAVWOODS

KEY FEATURES AND BENEFITS:

- Endless opportunities across a multitude of applications.
- Seven of Havwoods' most popular on-trend colours, six in oak and one in walnut.
- Mix-match production technique ensures each panel is consistent in colour and quality.
- Panels are supplied ready to use and require no additional finishing on-site.
- Our pre-finished panels make installation and fabrication effortless.

VERTICAL

Translate the impact of wood to vertical surfaces with our collection of solid and engineered cladding boards. Milled to twenty-first century tolerances, the result is a board that is effortlessly easy to install and designed to create a feature in any space. Customers will require a suitable finish to complement these products to enable a suitable level of fire resistance under British Building regulations. Please ask staff for further details. All vertical surfaces need a suitable finishing product applied to attain the required building regulation standards.

CALAIS

HRC3005

Calais is a diamond-shaped tile with sides of 25cm length. A clear linear scratch gives elegance and a delicate chiaroscuro on the wall. It can be arranged both vertically and horizontally, but also parallel to one of the sides of the body or in a mixed system. In each of the arrangements it gives the interior originality and warmth. The wall gives the impression of a soft, pleasant surface.

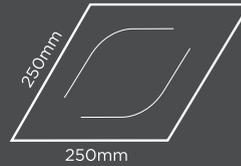

Thickness 30mm
Construction Engineered wood
Wood type Oak
Finish Oil Matte

ZETES

HRC3010

Zetes is a diamond-shaped tile. Its unusual design is characterised by a curvilinear, deep form. The plate is half concave and the other is strongly convex. This procedure makes the wall in this solution receive an extraordinary depth. This exceptionally decorative panel form will give a unique character to any room. The plate has a symmetrical form where it can be arranged both vertically as well as horizontally, and in a mixed system.

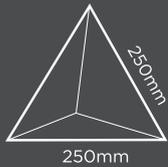

Thickness 35mm
Construction Solid wood
Wood type Oak
Finish Oil Matte

CHIONE

HRC3000

Chione is a triangle-shaped plate with sides of 25cm length. This is a 3-dimensional form in the shape of a conical, irregular tetrahedron. Due to the lack of symmetry the plate can be laid in many different ways. The geometric shape makes it ideal for modern interiors. Each wall casts a shadow at various angles.

Thickness	25mm
Construction	Engineered wood
Wood type	Oak
Finish	Oil Matte

Playing with light and shade

Beautiful new wall solutions made from natural wood.

The interior walls like you've never imagined before.

Playing with light and shade these decorative and stylish wall solutions can complement any wall design.

05 PROFILE

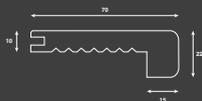

At Havwoods we are pleased to offer a complete range of T and end sections, ramps and stair nosings specially produced to complement our entire flooring collection; we are also able to offer a flush nosing for our Pureplank. The hardwood profiles are not simply stained to suit but textured, oiled and white oiled where appropriate. This is to match - as closely as possible - the selected flooring. All profiles are also available unfinished or prefinished with a light oak lacquer. Please note that this is a bespoke service and will take approximately one week from placement of order.

STANDARD DELIVERY OPTIONS

Delivery Rates

All orders over £500 delivered free on a 3-4 day service to standard destination UK mainland
Below carriage paid. **£25.00**

Returns

Returns will be subject to a handling charge of 20%, plus return carriage charge. Open packs cannot be returned for credit.

SURCHARGES

Next day service	£30.00
Next day, two-hour timed slot (10.00a.m.-4.00p.m.)	£50.00
Certain day	£30.00
Next day a.m. service	£35.00
Saturday	£50.00
Moffett assisted delivery for Greater London	£150.00 (Reservation required)

These rates apply to UK Mainland. POA for non-Mainland and Scottish Highlands. Above deliveries are kerbside only. Due to the nature of the products, some may not be offloaded using a tail lift and will have to be manual handled from the vehicle. Please ensure suitable labour is at the delivery point to offload your delivery.

SPECIAL DEDICATED DELIVERY

Special Dedicated Delivery with your order placed in a room of your choice on ground floor.

OPENING HOURS

Monday to Friday 7.30am-4.30pm;
Wednesday 7.00am-4.00pm
Trade counter collections must be made 30mins before closing time. (Trade counter only at head office).

Description & Material Specification

Any samples, drawings, images, descriptive matter, or advertising produced by us and any descriptions or illustrations contained in our catalogues, websites or brochures are produced for the sole purpose of giving an approximate idea of the products described in them. They shall not form part of the contract or have any contractual force. The images of the products are for illustrative purposes only. Although we have made every effort to display the colours accurately, we cannot guarantee that your computer's display of the colours will accurately reflect the colour of the products. Your products may vary slightly from those images.

Returns

Returns will be subject to a handling charge of 20%, plus return carriage charge. Open packs cannot be returned for credit.

Your right to return

Please note our standard carriage terms:

1. All damages must be reported within 4 days.
2. Any damaged or missing goods must be signed for accordingly (ie "damaged" or "missing"). Phrases such as "unchecked" will not be accepted.
3. Your notice of intent to return damaged goods must be made within 14 days.
4. Before returning any goods a return order number must be obtained from Havwoods' sales Department. Please write this number, together with the names of both sender and recipient, clearly on each unit being returned.
5. If goods are refused (ie not offloaded) please ensure that the documentation recording this also contains your representative's name, signature and date.
6. Please ensure that you obtain a name, signature and date from whomsoever accepts goods for return (eg, the van driver or Havwoods representative).
7. Do not allow any driver to remove goods without documentation from his company instructing him to do so; such documentation may be arranged through Havwoods' transport department. NB if Havwoods' permission to remove is not obtained and the goods go missing Havwoods will not accept any responsibility to issue a refund.
8. Please note that, in the case of special or timed deliveries, delivery charges excluded, Havwoods cannot accept responsibility for consequential loss due to late delivery.

NB Warranties only applicable to floors installed with Havwoods fixing products and maintained with Havwoods maintenance products, unless otherwise stated.

Please note that this issue supersedes all previous price lists.

Please note that Havwoods Ltd Terms and Conditions of Sale, as displayed at www.havwoods.co.uk, apply to all transactions. All prices are per square metre unless otherwise stated. Offers subject to withdrawal without notice. All coverages quoted are only approximate. All prices are subject to Havwoods standard Terms and Conditions, as displayed at www.havwoods.co.uk. E.&O.E. These prices supersede all other offers. Whilst every effort has been made to reproduce flooring samples, the colours shown are only as accurate as the printing process will allow. © Havwoods 2018.
